precision
moves
science –
with us at
your side.”**

Making science happen

With precision and dedication, you ensure accurate results and make innovations possible – as the true heroes behind every success. We understand the importance of your work and provide you with solutions that make your work processes simpler, more sustainable and more precise.

Ergonomics and comfort

Long hours in the lab or repetitive tasks can be exhausting. We offer you solutions that simplify your everyday life and are also ergonomically optimised to enable effortless handling. This makes your everyday work easier and more efficient.

Ecological sustainability and responsibility

Plastic consumables are often unavoidable in laboratories. Nevertheless, we do all we can to minimise our ecological footprint. By using sustainable energy sources at our local production sites worldwide as well as innovative refill and recycling concepts, we want to actively contribute to reducing the ecological footprint in your laboratory.

Time saving

Our products are designed to save you time. By optimising your workflows, unnecessary repetitions are avoided and processes are accelerated. Your work is done more quickly so that you can concentrate on the essentials.

Maximum precision

Every nuance counts in your profession. We support you in achieving precise results at every step of the process. High-quality products with a good price-performance ratio – that is our promise to you.

Tools for heroes

Solutions for technical assistants

Every experiment counts – that's why we offer solutions that are perfectly tailored to the requirements of technical assistants. Our wide range of consumables and laboratory equipment help you to complete your tasks quickly and efficiently.

Sturdy – for safe specimen handling

Our sample tubes guarantee safe storage and handling of specimens. Whether reaction tubes, centrifuge tubes or SARSTEDT micro screw cap tubes – our sample tubes can withstand even the most demanding laboratory conditions.

- Maximum safety for you and your team – thanks to particularly robust materials and secure caps.
- Always perfectly organised and yet with maximum flexibility – thanks to a wide range of sizes, shapes and colours.

Versatile and precise – for reliable PCRs

Thanks to precise manufacturing and elaborate quality controls, our PCR products offer the best conditions for quickly achieving your experimental goals.

- So that you succeed in every approach: Perfect fit and proven safety.
- Progress faster with reproducible results – PCR products of uncompromising quality and purity.

Adaptable – Pipettes and pipette tips tailored to your requirements

Precise results, convenient to use: Our ergonomic pipettes and custom-fit pipette tips are designed for comfort and precision.

- Comfortable handling – thanks to our pipette with flexibly adjustable tip ejection, quick and precise volume adjustment and feather-light design.
- Even more sustainable with our refillable pipette tip system and recyclable tip boxes.

Your pipette according to your wishes

Do your own thing and design your pipette just the way you want it. Upload your own image or create your individual clip from a variety of designs and your own personal text.

Customise now: sarpette.sarstedt.com/en/configurator

Reliable – for complete control in cell culture

Whether dishes, plates or flasks, our cell culture products come with a variety of growth surfaces designed for rapid and uniform cell growth. Would you like a little more? Our cell culture products excel at higher throughputs.

- Keep everything under control with SureGrip side grids, colour coding and optimal stackability.
- The intelligent design ensures maximum safety for you and your cells. The contamination risk is reduced to a minimum.

Technical assistants at the heart of excellence

Science thrives on precision and efficiency.

Technical assistants are the guarantee that these criteria can be met in the laboratory. SARSTEDT understands your challenges and offers solutions that make your work easier while ensuring the highest standards.

Good research starts with good foundations

Accurate research requires the highest precision and consistently high quality. To guarantee this, laboratory products must not only meet the highest quality standards, but also be practical and easy to use.

At SARSTEDT, we develop products that make everyday laboratory work easier with well thought-out details. 60 years of experience, in-house production and close communication with our customers enable us to meet your requirements in the best possible way.

- > How can good consumables optimise my workflow?
- > How can I make my lab work more sustainable?

For life, for science. SARSTEDT

Whether for modern basic research or diagnostics, from the functioning of individual cells to complex biological systems – SARSTEDT also offers a wide range of products and services in the field of life sciences that meet the specific requirements of technical assistants.

Life is not always Science. But Science is our life.
